Model : SZ999  
Revision : 1.0

**Product spec: SZ999**

**Page 2 of 3**

## Product Brief

The fabric chest belt is detachable snap on structure (in between fabric belt and main module); it is a heart rate transmission (by BLE) only chest belt with previous design casing same as SZ991; the module which should mount on the fabric belt when use can be separated with fabric belt. With this design, it is more convenience for cleaning and using. As the module will not touch the skin directly, instead, the soft fabric chest belt will do it. People will have good felt when wear it

## Features Overview

- Heart rate detection
- BLE connectivity

## Product Dimension

Module size: 66.1 x 38 x12.5 (mm)

Weight: 18 kg

## Battery lifetime (by estimated)

CR2032 x 1 battery

12 months battery life

## Waterproof/ Water Resistance

1 ATM

## Effective Range for BLE

Within 10 meters

## APPROVAL

1, CE

2, FCC

3, R&TTE

4, BLE
